Topic: Possibilities of linking CAD and MS Excel
Series of training unsolved tasks for subject „CAD design in landscape engineering"

In „cad_excel_drawing.dwg" drawing there is displayed SUA botanical garden park. There is simple table with the Areas overview.

Solve these tasks:

1. Create the overview table in that fashion, so the data can be displayed both in the drawing and (currently empty) file „table_cad_excel.xlsx"
2. Try if the changes can be written in this file – change the area PZ-01. Make the change as „unhatching" the area PZ-02
